

SORTING PLANTS FOR MIXED BUILDING DEBRIS

**ALL FROM ONE COMPANY.
FROM THE DESIGN TO COMMISSIONING.**

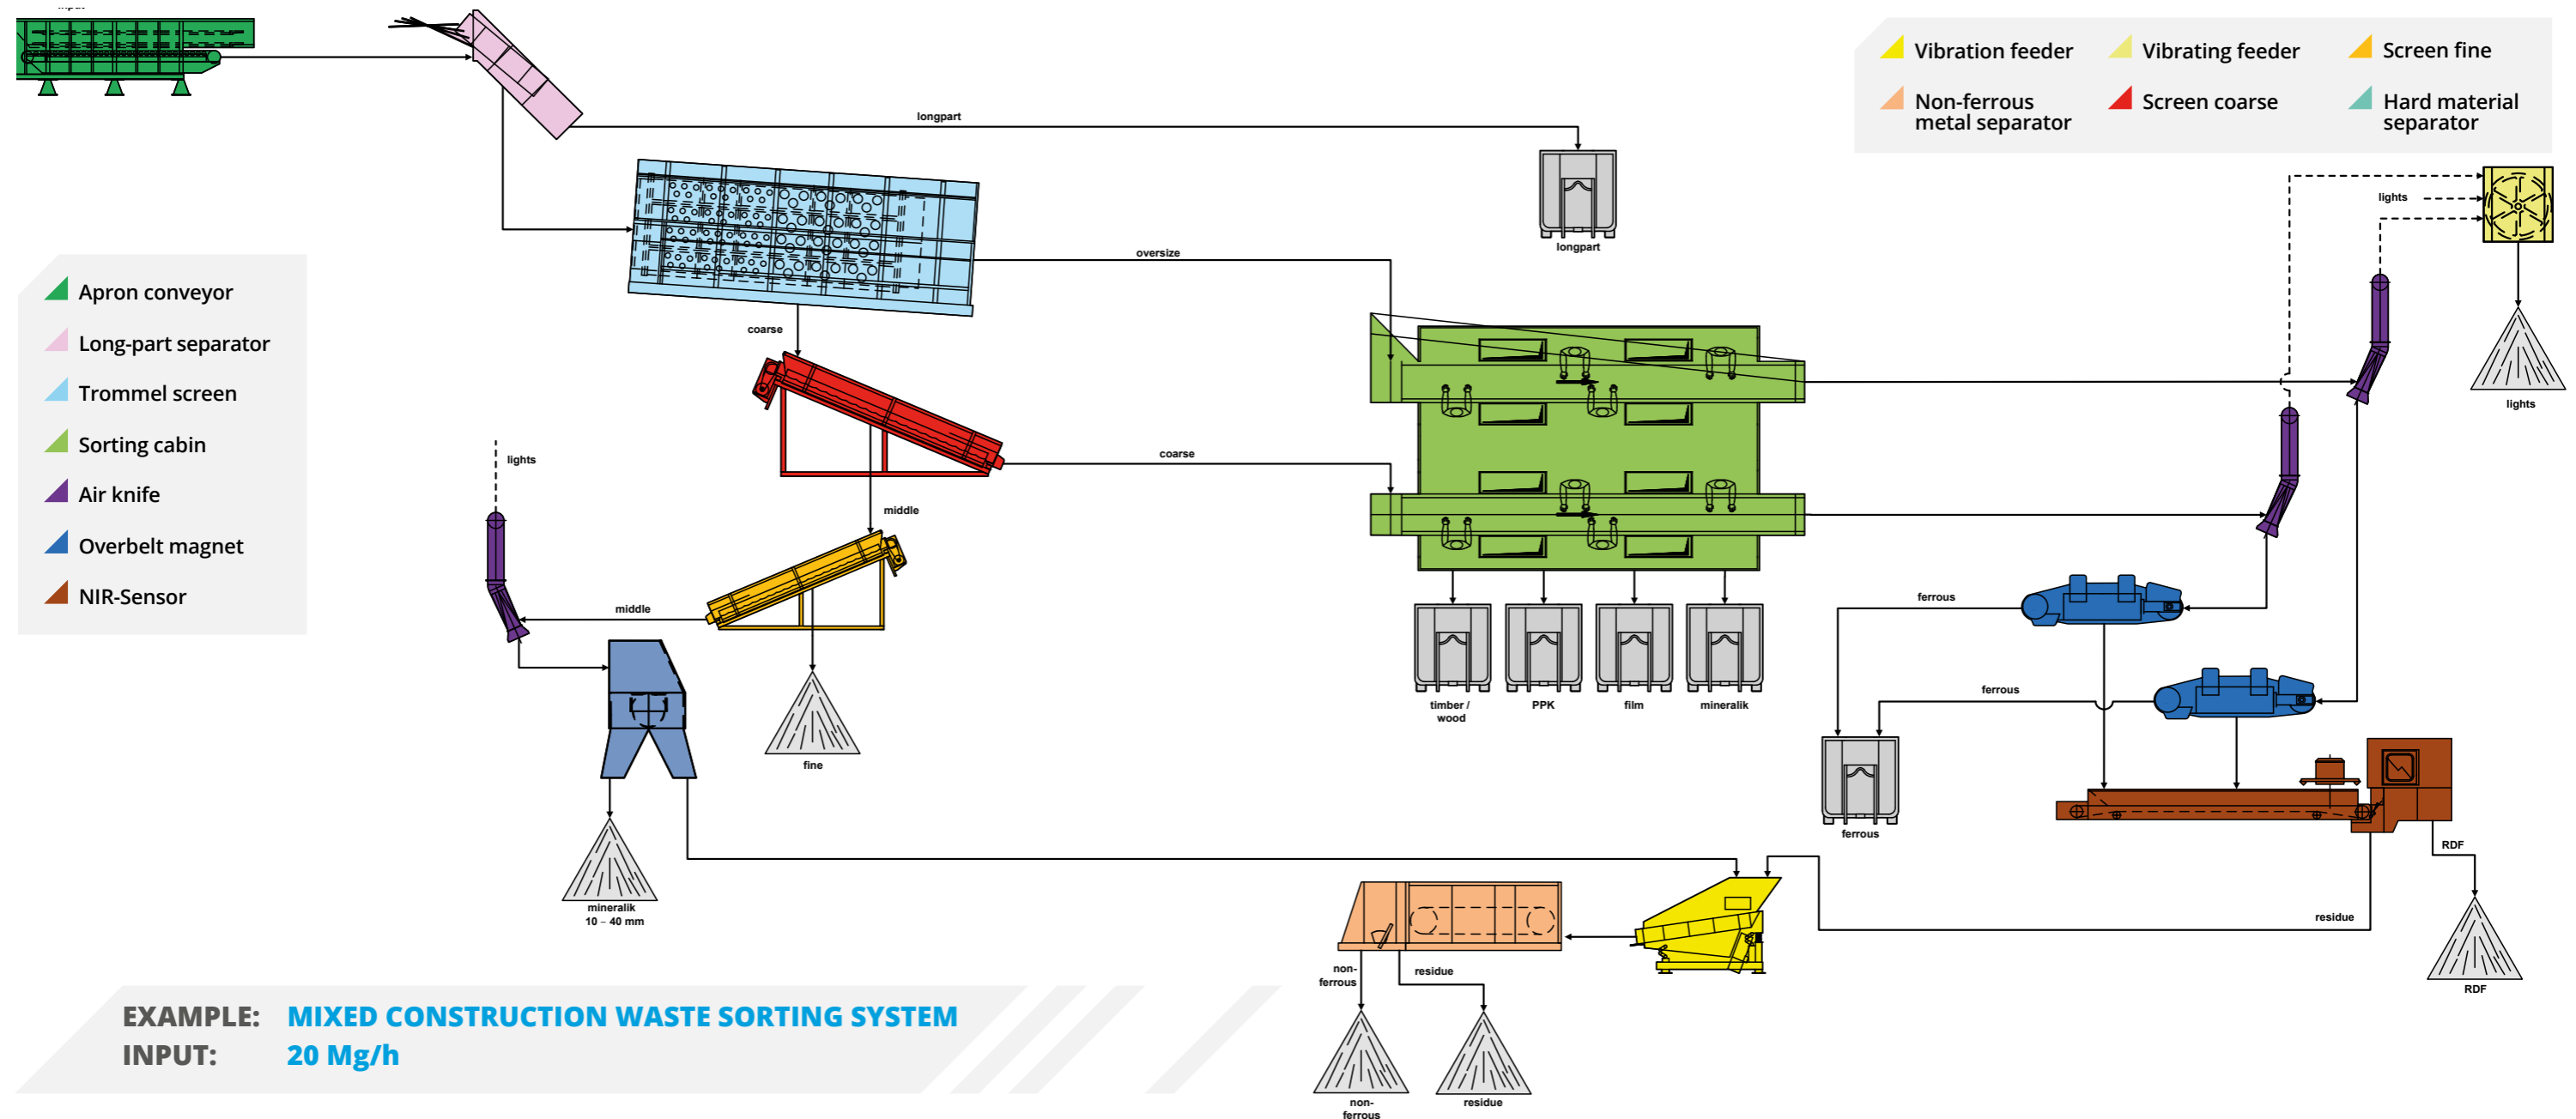

SORTING PLANT FOR MIXED BUILDING DEBRIS

Mixed construction waste is a mixture of mineral and non-mineral material such as mixtures of wood, metal, cables, film, packing material, glass, cardboard, paper, plastics etc. The mineral material includes e.g. bricks, tiles, wall debris, stones, concrete etc..

Special waste such as roofing felt, asbestos cement, paint, lacquer etc. is excluded.

The recyclable and non-recyclable materials are separated from this mixed construction waste, and the recyclable fractions are separately returned to the circulation.

Recyclable products of high quality, the preservation of landfill areas and the protection from hazardous waste are major benefits.

EXAMPLE: MIXED CONSTRUCTION WASTE SORTING SYSTEM
INPUT: 20 Mg/h

SOME REFERENCES

SORTING PLANT FOR MIXED BUILDING DEBRIS

SORTING PLANT BAKU

Location	Baku, Azerbaijan
Plant	Sorting plant for MSW
Throughput	80,000 Mg/a
Customer	Adelmann, Karlstadt, Germany

COMMERCIAL WASTE TREATMENT PLANT BIRMINGHAM

Location	Birmingham, United Kingdom
Plant	Commercial treatment plant for the production of SRF
Throughput	24 Mg/h industrial waste
Customer	Sita UK, United Kingdom

SORTING PLANT AHRENTAL

Location	Ahrental, Austria
Plant	Sorting plant for industrial, domestic and bulky waste
Throughput	40 Mg/h
Customer	Arge Ahrental Fröschl Alpine, Austria
